Subscription *	Azure for Students
Resource group *	(New) Imspractical26

[Create new](#)

Namespace Details

Details of the notification hub namespace.

Notification Hub Namespace *	Ims-prac-26
------------------------------	--

Notification Hub Details

Details of the notification hub.

Notification Hub *	Imsprac
Location *	Central India
Select pricing tier	Free Change tier

Availability zones

Allows local failure recovery of all your data. Duplicates data across three availability zones within the region. This feature is available at an additional cost to all tiers. [Learn more](#)

Enable availability zones	☒
 Additional costs apply. Learn more	

Disaster recovery

Sets up failure recovery of namespace metadata like connection strings and hub details to another Azure region in the event of a complete region failure. The flexible recovery option is included with all tiers. [Learn more](#)
