

A) Cards

1. Insert a card in the Customer Detail report page to show Total Customers, and rename the field “UNIQUE CUSTOMERS”
2. Copy and paste to create a second card showing Average Revenue per Customer, and rename the field “REVENUE PER CUSTOMER”

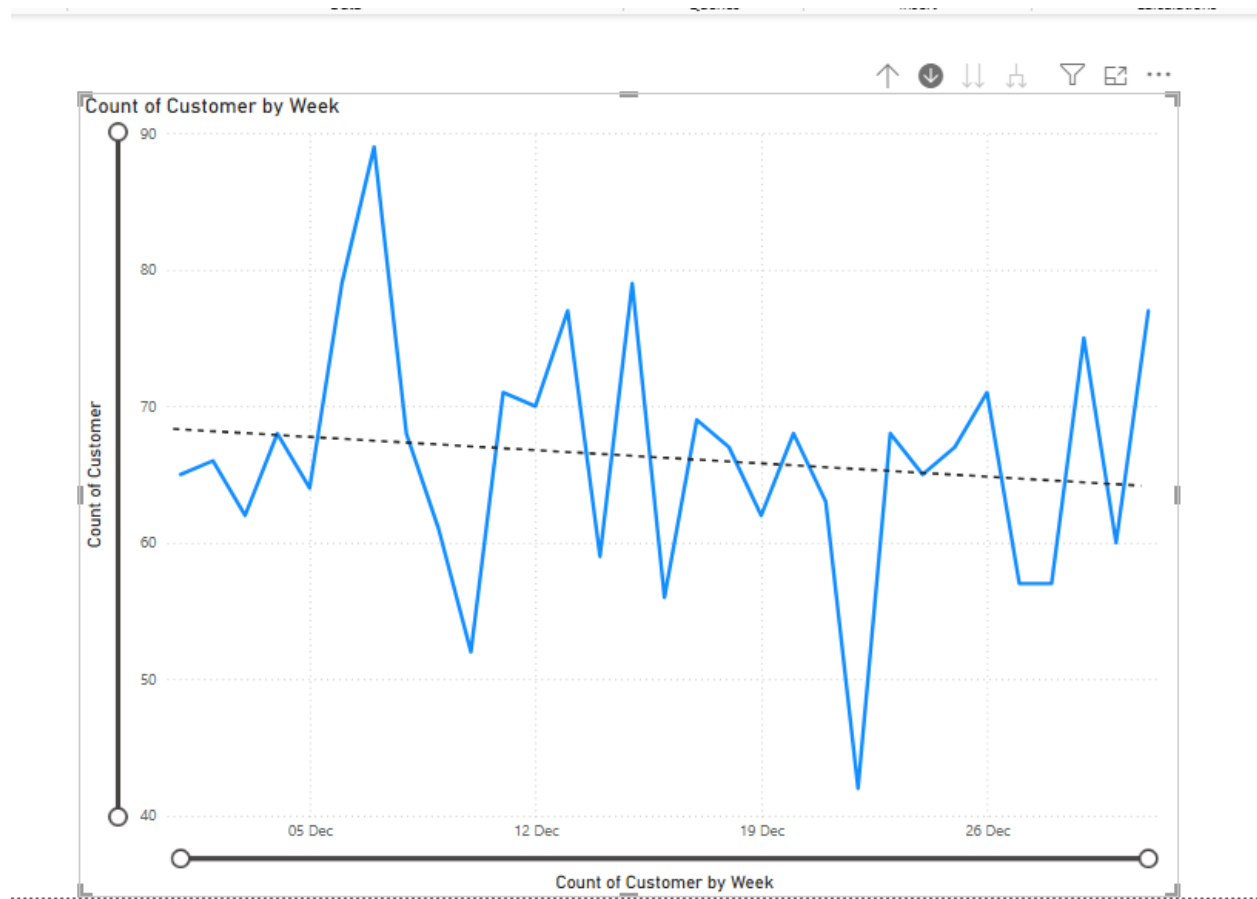

B) Line Charts

1. Add a line chart to the Customer Detail report showing Total Customers by week

2. Add a trend line and a zoom slider to the x-axis

C) Donut Chart

1. Add a donut chart to the Customer Detail report showing Total Orders by Income Level
2. Add a chart title, turn off the legend, and update the data labels to show the category and value (font size 8, 1 decimal place)
3. Add a visual-level filter to exclude customers with a “Very High” income level"

☐ Require single selection

D) Tables

1. Add a table to the Customer Detail report to show Customer Key, Full Name, Total Orders (as “Orders”) and Total Revenue (as “Revenue”)
2. Use conditional formatting to add light gray data bars to the orders column and a white > blue color scale to the revenue column

CustomerKey	Full Name	Orders	Revenue
11262	JENNIFER SIMMONS	106	\$1,464.8
11300	FERNANDO BARNES	106	\$1,839.0
11331	SAMANTHA JENKINS	102	\$1,739.6
11185	ASHLEY HENDERSON	100	\$1,716.8
11566	APRIL SHAN	99	\$1,424.5
11091	DALTON PEREZ	97	\$1,513.1
11277	CHARLES JACKSON	97	\$1,776.7
11287	HENRY GARCIA	97	\$1,443.0
11330	RYAN THOMPSON	97	\$1,596.6
11223	HAILEY PATTERSON	90	\$1,615.7
11711	DANIEL DAVIS	89	\$1,403.9
11176	MASON ROBERTS	88	\$1,526.0
11200	JASON GRIFFIN	83	\$1,613.9
11276	NANCY CHAPMAN	76	\$1,111.2
11505	JASMINE POWELL	61	\$1,103.5
11631	ANTONIO BENNETT	58	\$1,001.4
11506	NICHOLAS BROWN	56	\$934.3
11520	JADA MORGAN	55	\$1,022.8
11211	SAMANTHA RUSSELL	54	\$948.0
11502	JARED PETERSON	54	\$1,051.5
11203	LUIS DIAZ	53	\$1,002.1
11019	LUKE LAI	51	\$961.9
Total		3764	\$1,90,016.5

E) Top N cards

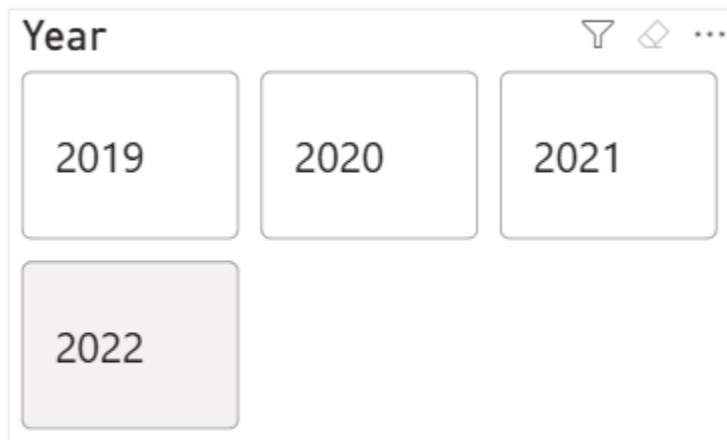

1. Add a card to the Customer Detail report to show Full Name
2. Add a visual-level filter (Top N) to show the top customer (Full Name) in terms of Total Revenue
3. What do you notice when you filter the report for low income customers?
4. How could you modify the Top N filter to correct this?

Note: Adjusted the filtering logic within the help of Filter Tab in Final report.

F) Slicers

1. Add a slicer to filter the Customer Detail report page by Year
2. Choose any slicer style that allows users to filter individual years or across multiple years

3. Add a visual-level filter to exclude blanks

H) Report Interactions

1. On the Customer Detail tab, edit the report interactions based on the following logic:
2. When a filter is applied to the line chart, the donut charts should filter (not highlight)
3. When a filter is applied to the table, the line chart and donuts should not filter
4. The slicer should filter all visuals on the report page
